LIGHTING

PROJECT CHANDELIERS

Today, we harmoniously combine centuries-old glassmaking traditions with a wide

range of modern techniques and technologies. An infinite variety of styles and shapes
results from the perfect craftsmanship of our expert glassmakers.

range of modern techniques and technologies. An infinite variety of styles and shapes
results from the perfect craftsmanship of our expert glassmakers.

Production at LAVIUS LIGHTING is based on exclusive and unique hand-craftsmanship that enables us to achieve the highest quality

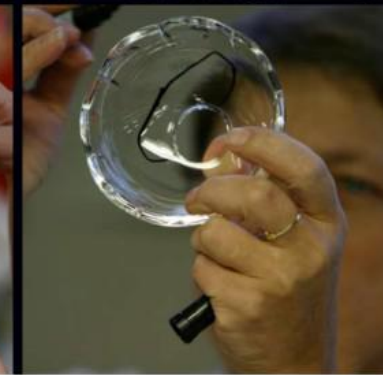

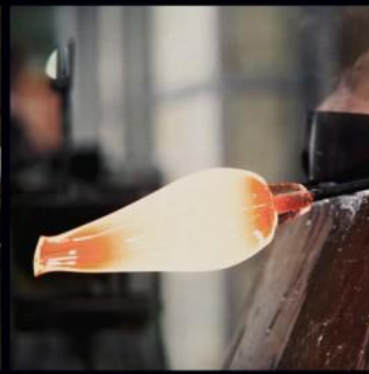

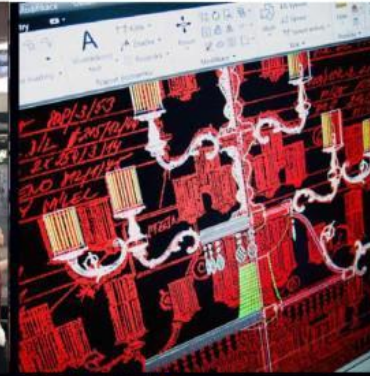

BORN IN THE FIRE

The magic and power of our lighting fixtures stems from the handwork. Creation of glass in fire commands respect and still carries something of the ancient mysteries. All five elements—earth, fire, water, metal and wood—enter into the process, but it is the skillful hands of man that turn nature's forces into noble and sparkling crystal. Experience and skills of our artisans allow us to produce almost anything, sometimes even beyond manufacturability. Thus, we are able to manufacture unique signature designs for all our clients.

quality

All production quality
controlled under one rule
allows us to offer our clients...
