About Vincentaa

Over the past 12 years, Vincentaa has evolved from a small sculpture company to a service company that offers a comprehensive range of art services and products. We are dedicated to the study and application of art to urban development. By working with hundreds of artists and architects from all over the world, we keep abreast of artistic trends and lead the way in the use of art in various areas of urban development.

We have undertaken 600+ art sculpture projects from all over the world, some from art galleries, artists, architects, national governments and large corporations, gaining a great deal of experience in production and art project management. At Vincentaa, you can see almost every sculpture production process and material available worldwide.

Vincentaa is committed to providing a one-stop artistic service for your project, including artistic consultancy, budget control, project management, original sculpture design, sculpture deepening, sculpture prototyping, sculpture fabrication, global shipping and installation.

A modern, flower-shaped gazebo with a metallic, reflective finish is situated in a lush green park. The gazebo's canopy is composed of several large, overlapping petals that create a dome-like structure. Inside the gazebo, there are several white, modern-style chairs arranged for seating. The background is filled with tall, slender trees and dense foliage, creating a serene and natural setting. The overall scene is captured in a soft, slightly hazy light, emphasizing the organic form of the gazebo and its integration with the surrounding environment.

Gazebo

A roadside kiosk for pedestrians to rest in. It is widely used in landscape architecture because of its lightweight shape, flexible material selection and flexible layout. An open pavilion or pavilion in a garden or park, often built with pillars supporting the roof.
